

K-LOVE is my favorite radio station. In San Antonio, it is a voice that supports wholesome values and has a positive and encouraging impact on the community. We support K-LOVE because it is a station that cares about people and strives to meet those hurting and in need. Keeping K-LOVE in the San Antonio community is vital to residents. I have not found another comparable station that reaches so many with such a spirit of community and acceptance. Residents are better people from this station - we are encouraged to go outside our comfort zone and help others where we might have just closed ourselves in our own little world. If K-LOVE were to be displaced by an LPFM broadcaster we may not have the family-friendly programming we so crave. There is enough trash on the air! Please don't force our K-LOVE off the air!
